GLOBAL WARMING

EVERY DAY WE USE A LOT OF ENERGY. IT PRODUCES CO2 AND OTHER GASES THAT MAKE A BIG, DIRTY "CLOUD" AROUND OUR PLANET: POLLUTION!

POLLUTION BLOCKS TOO MUCH HOT AIR INSIDE THE ATMOSPHERE, SO THE TEMPERATURE OF THE WORLD GOES UP.

THAT IS "GLOBAL WARMING".

GLOBAL WARMING "CONFUSES" THE WORLD AND THE WEATHER!

NOW IN SOME COUNTRIES IT DOESN'T RAIN AN IN OTHER COUNTRIES IT RAINS TOO MUCH.

HURRICANES ARE MORE DANGEROUS, STORMS ARE MORE FREQUENT, SUMMERS ARE HOTTER AND WINTERS CAN BE COLDER: THE CLIMATE IS CHANGING!

THE ARTIC ICE, HOME TO POLAR BEARS, IS THE PLACE WHERE THEY EAT AND SLEEP.

BUT WITH THE GLOBAL WARMING, THE TEMPERATURE OF THE SEA IS GOING UP AND THE ICE IS DISAPPEARING. SO, WHERE CAN THE POLAR BEARS LIVE? AND WHERE IS THE ICE GOING?

THE ICE BECOMES WATER, SO THE SEA LEVEL GETS HIGHER AND MANY TOWNS ON THE COAST AND ISLANDS COULD DISAPPEAR UNDER THE SEA!

THE "AGENDA 2030", PROMOTED BY THE UNITED NATIONS, IS AN AMBITIOUS PLAN TO SAVE OUR PLANET!

IT WAS SIGNED IN 2015 BY THE GOVERNAMENTS OF 193 COUNTRIES OF THE UNITED NATIONS.

THE AIM IS TO CUT CO2 AND OTHER GASES BY 55% BY 2030!

YOUR ACTION IS IMPORTANT TOO. START LIVING AN ECO- FRIENDLY LIFE NOW!
